## Notification for EUA Product

Dear Valued Customers,

We are reaching out to inform you of a recent update regarding our EUA product labels of Advin COVID-19 Antigen Test @Home. At Advin Biotech, transparency and compliance serve as the core principles guiding our operations and decision-making, which is why we want to address any questions you may have about a difference you'll notice on our labels.

Due to relocation, we submitted the updated product labels of our EUA product to FDA, but received the decline letter a few days ago. Following the decision from the FDA, we have updated certain aspects of our product labeling to ensure alignment with FDA requirement. As part of this process, **our manufacturing address as shown on the labels may not reflect our new facility address**. This was made in accordance with FDA decision to maintain consistency and clarity for our customers during this transition.

We understand that this may raise concerns, and we want to assure you that this discrepancy does not affect the quality or integrity of the product inside the packaging. While the information on the labels has been adjusted for regulatory reasons, you can continue to trust the same high-quality product you have always relied on.

We are actively working to address this discrepancy. In the meantime, if you have any questions or concerns, please don't hesitate to reach out to us.

Thank you for your understanding and for being a valued member of Advin Biotech.

Warm regards,

Chenglin Long

CEO

Advin Biotech, Inc.
